Aberhart's Unscrupulous Attacks and Unconstitutional Legislation Cause Grave Concern to Other Provinces

Interference of Self-Styled "Experts" From England Strongly Resented by Canadian People—Wonder If Alberta People Are Asking for "Touch of Fascism," States Eastern Opinion.

SUNDAY last marked the second anniversary of the election of the Social Credit government. It also marked two years of failure to implement those extravagant promises which Mr. Aberhart stated were so easy of achievement. It marked two years of impaired credit as a result of the incapability to govern wisely.

LACKING in truly national sentiment, trying to make believe that one of the nine provinces of Canada can be a law unto itself, defying the constitution and inciting people to rebellion, has developed a lamentable condition in Alberta, making it the laughing stock of the rest of Canada and the world at large. And this by a man professing to be a loyal subject, who sheds credulous credulity and piously tries to make believe he is abolishing poverty in the midst of plenty; the while he is ensconced in the office of premier with a salary of \$9,000 and the perquisites that are attached to the office.

THE TRUTH has been so twisted and distorted by Mr. Aberhart, that he has branded himself as unscrupulous and unprincipled. His declarations concerning the attempt to license the banks and the disavowance of his acts by the Dominion government clearly prove to what lengths he will go to mislead and misdirect the people. There are in Alberta many people with little regard for the constitution drafted by the Fathers of Confederation, and to this element

planning new ventures or holiday journeys.

JUDGING by decisions in recent cases of teachers appealing to the Board of Reference, one wonders if it is the A.T.A. which engage teachers or the trustee boards. We are not questioning the decisions but merely commenting on the limitations placed on those who have to shoulder the responsibilities of trusteeship and school management.

Coleman Wedding

PICARD - GILLESPIE

A quiet wedding was solemnized at 6 p.m. on Saturday when Margaret, youngest daughter of Mr. and Mrs. David Gillespie, became the bride of Mr. Lawrence Picard, of Blairmore. The bridesmaid was Miss Jean Roberts, and Mr. Joe Janotak stood for the groom. Rev. H. J. Bevan officiated at the ceremony, which was held at the home of the bride's parents. Only immediate friends and relatives were in attendance.

The young couple will take up residence in Coleman. Mr. Picard is employed by the West Canadian Collieries at Blairmore. Happiness is extended to them from their numerous friends throughout the Pass.

Local News

Mr. and Mrs. Harry Gardner returned on Sunday from a two weeks motor trip to various cities on the Pacific coast in the western States.

Mr. and Mrs. Jack Rogers and daughter Emma motored to Kimberley on Sunday to visit Mr. and Mrs. Charles Greenland.

Mrs. T. McGregor is visiting for one week at Kimberley, where she will be joined by her daughter, Bessie, on Sunday.

Miss Ruth Jackson has returned to Cumberland, B.C., after spending the summer vacation at her home here. She was accompanied by her sister, Muriel, who will spend a few weeks visiting with her aunt.

Mr. and Mrs. S. B. Ryan returned on Sunday from Vancouver, after two weeks holidays. They made a trip up to Powell River, where they visited the plant of the Powell River Paper Co., which ships newsprint to all parts of the world. They were accompanied on their trip by Mr. and Mrs. James Kilgannon and Mrs. Booth.

Surfaced Roads Are a Boon to Coleman Citizens

Continuation of Improvement Program Endorsed by Ratepayers Who Appreciate Benefits.

SURFACED ROADS and sidewalks come as a boon after long suffering of the dust nuisance and walking over gravel and rocks. Now one can walk to and from the residential parts of town in comfort, in fact enjoyment, after so many years of gravel crushing. It is hoped that the present program of street improvements will continue. Ratepayers will heartily approve of the expenditure, for now they have something worth-while in place of the old wasteful method of spreading gravel and a few days later picking it up again. A marked lessening of dust on the streets is already noticed. Our thanks are tendered to the mayor and council, with the hope that the good work will continue.

CANADA YEAR BOOK FOR 1937

Dominion Bureau of Statistics announces that the above publication will be supplied to the public, as long as copies are available, at the price of \$1.50. By a special concession, a limited number of paper-bound copies have been set aside for ministers, bona fide students at school teachers at the price of 50c each. Orders should be sent to the King's Printer, Ottawa, Ont.

Printing of good quality commands attention and lends prestige to the business for which it is used. That is the kind The Journal prints.

To command public attention you secure the maximum results by using The Journal. The printed word stands out above all others, and Journal advertising is a half-mark of enterprise and progressive energy.

CANADA NOW TAKES NEARLY HALF OF COAL FROM GREAT BRITAIN

(The Christian Science Monitor) TORONTO, Ontario. — Although United States coal at one time dominated the Canadian market, the tonnage of British coal imports has increased lately until now Canada obtains 48 per cent of her coal from the United States, 42 per cent from Great Britain and the remaining ten per cent from other overseas countries. While coal from the Soviet Union, Germany, Indo-China and Belgium enters Toronto port as European coal, it is sold under its own name, according to officials of the Harbor Commission.

This summer, for the first time in about six years, four ship-loads of coal from the Soviet Union were shipped at Montreal and recently arrived in Toronto. It is in large sizes only, and is not suitable for blowers, it is understood. Fuel can be brought from Indo-China, 14,000 miles away by water, and laid down on the docks at Toronto cheaper than coal brought from Erie, Penna., a fact brought out by a Canadian business publication recently.

While Canada buys some Canadian coal from Alberta and Nova Scotia, each year she imports about 1,800,000 tons from the United States, 300,000 tons from Scotland, 64,000 tons from Wales, 300,000 tons from Germany, 124,000 tons from Indo-China and 70,000 tons from Belgium.

Frank G. Graham Pioneer Citizen Passes On

Link With Coleman's Early History Lost With Rest After Active Life in Pass Towns.

Coleman citizens on Tuesday paid their mark of respect to a citizen of 33 years residence here, when Frank George Graham was laid to rest beside his wife in Blairmore cemetery. His death on Saturday morning in the Royal Alexandra hospital, Edmonton, brought to a close a very active life of 67 years, over forty of which were spent in Western Canada.

He was born in Springfield, N.B., and in 1903 was married to Mary Edith Maltby, of Newcastle, N.B. Three years later they came to Nelson, B.C., and in 1903 they moved to Frank, then the metropolis of the Pass. Following the big slide there, they moved to Coleman, and Mr. Graham took a leading part on the school board, town council and was fire chief. From a hamlet he saw the town develop into an incorporated town of about 4,000 people.

In 1913 he was appointed postmaster, the duties as such having been carried on for several years by his son Frank. Mr. Graham, who died in 1928, is affectionately remembered, particularly for his efforts and good work in behalf of the Anglican church.

Mr. Graham for over a year had been suffering periods of ill-health, and during the last week in July went to Edmonton to visit his daughter, Mrs. Steve Machin (Dorothy Graham). He was placed in hospital shortly after arrival there, but despite his unflinching cheerful disposition so familiar to all who knew him, he passed away on Saturday, Aug. 21, at 4 a.m.

Members of the family are Arthur, Frank and George, Coleman; Charlie, of Calgary; Jack, of Edmonton, (sons) and Dorothy, (Mrs. Steve Machin) of Edmonton, daughter.

A sister, Mrs. J. E. McIntyre, lives in Los Angeles, and a sister-in-law, Mrs. Annie Graham, Vancouver.

The funeral service was held at his home on Tuesday afternoon, by Rev. A. S. Partington, B.A., rector of St. Alban's, attended by the family and close friends. The pall-bearers were old friends, viz. J. Emmerson, A. Easton, J. O. C. McDonald, J. Salvador, H. Antle, W. Burrows.

The Elks Lodge, of which Mr. Graham was a member, attended and their funeral rites were read by A. R. McLeod, of Blairmore.

Members of the family present were Mr. and Mrs. A. E. Graham, Mr. and Mrs. Frank G. Graham, Mr. and Mrs. George Graham (Coleman), Mr. and Mrs. John H. Graham (Edmonton), Mrs. Steve Machin (Edmonton), Mr. and Mrs. Charles Graham, Calgary. Others from a distance were Mr. Houston and daughter, of Nelson, Mr. and Mrs. F. Haman, of Natal, and Mrs. Haman, sr., of Natal.

Rushing Work on Highway

Work on the Pincher to Macleod highway is being done in three shifts. Unusual courtesy is shown the motorist by the work trucks, especially at night, when they go practically off the road to allow the private car to pass in order to escape the loose gravel which is piled on the side of the road.

Mr. and Mrs. Len Watkins, of River, are the guests of Mrs. Watkins' parents, Mr. and Mrs. James Ford.

Sport Activities of Coleman Clubs Arouse Widespread Interest as Season Draws to Close

BASEBALL CHAMPS TO PLAY COLEMAN

Lethbridge Coronets, southern Alberta's champions, will play Coleman team in the baseball park here on Sunday. The first game will be at 2:30 p.m. and the second at 6 p.m. A silver collection will be taken. Batteries for Coleman: Kubla, Morris and Mahovich; Lethbridge (not known).

COLEMAN CO-EDS WIN AND LOSE AT LETHBRIDGE

Coleman Co-Eds continued to dominate the Lethbridge Acme-Lites at Lethbridge on Sunday. Just completing a 100-mile trip, the Co-Eds were too weary to give of their best and lost a close 8-3 decision. In the night-cap, however, after having a chance to rest they romped all over the lot to win as they played 22-5 against the harassed Acme-Lites crew. The Coronets, strongest ladies team in Lethbridge, will test their strength against the local lassies here at the ball park on Sunday.

COLEMAN HOMING SOCIETY

Results of race from Didsbury, Saturday, August 21st:
F. Eyzackers, C. Makin, A. Biegan, M. Nemmeth, W. Roughhead, H. Davis, F. Boddington and W. Pryde. Four lofts unsupported.
Prizes were donated by Coleman Hotel, Ed. Ledieu and F. Antrobus. The next race will be held from Red Deer on August 28th.

MAYOR PATTINSON RECEIVES DECORATION FROM KING GEORGE VI.

In recognition of municipal service, medals with certificates have been bestowed on mayors of cities and towns throughout Canada. The medal is of silver and has a ribbon and clasp, while on the certificate accompanying it is the following inscription:

G. R. L.
Buckingham Palace
By command of His Majesty the King the accompanying is forwarded to Geo. Pattinson, Esq., to be worn in commemoration of Their Majesties' Coronation, 12th May, 1937.

Beautiful Galt Gardens in Lethbridge

RECENTLY on a visit to Lethbridge we spent a quiet half hour in Galt Gardens, a very beautiful spot in this enterprising city. We were informed that an appropriation of \$9,000 is made to maintain the gardens, Henderson and other parts of the city. Judging by what one sees, the money is being well spent, and Lethbridge receives some good publicity and favorable comment by all who visit these beauty spots.

J. C. HODGSON DIED SUDDENLY IN BOSTON

Mrs. Emmerson received word from Mrs. Hodgson, of Halifax, stating that the latter's husband died suddenly in Boston on July 31, aged 58 years. He was known to many here. Mrs. Hodgson being a daughter of the late Mr. John Scott, of Coleman, and Mrs. Scott, who is now living with her daughter in Halifax. Mr. Hodgson was manager of General Sea Food Products, Halifax, N.S. He was in the wholesale grocery business in Calgary for 14 years. Later he was appointed manager of the E. D. Smith canning factories at Winona, holding that appointment 15 years, when he went to Toronto as an executive with Canned Foods and Associated Cannery. He went to Halifax in 1936.

He is survived by his widow, Marion Scott Hodgson, and one daughter, two sons, a sister and a brother, Ralph L. Hodgson. The funeral was in Halifax, and was attended by a large number of friends and business associates from Hamilton, Montreal, Windsor, Winona and other points.

Mr. and Mrs. Geo. Ford, accompanied by Mr. E. E. Henriette, motored to Lethbridge on Saturday, returning Sunday via Waterton.

Mr. and Mrs. Allan Brown are vacationing at the coast.

COLEMAN IN FOOTBALL TOURNAMENT

Two Pass Teams Will Enter in Labor Day Sports.

Fernie Sports committee are expecting eight teams to compete in their soccer tournament, prizes being \$100 and \$75. Coleman will have two entries, Coleman Rangers and a team composed of players from Hillcrest, Bellevue, Blairmore and Coleman. Two Lethbridge teams are expected. Harlequins having already sent in their entry form, Kimberley, Trail, Fernie and Michel are the other entrants.

President Joe Emmerson, of the Crow's Nest Pass Football Association, has given official sanction that all teams not affiliated with the Dominion Football Association may compete in the Fernie soccer tournament.

PAGING "BILL" FRASER

Lethbridge, now that they have hurled the barrier of having an artificial ice arena, are making no secret of the fact that they want a hockey team that will hold its own with any in the province.

Four hockey players are now headed towards Lethbridge from Saskatoon, who possess hockey ability of no small degree, at least so they say. At Lethbridge on Saturday it came to the Journal's attention that two Lethbridge sportsmen, Pop Price and Jimmy Gurr, are anxious to have Bill Fraser don the skates in Lethbridge's behalf next winter. At the next executive meeting of the Lethbridge hockey club, Fraser's name will be put on the table, and a discussion held as to what offer might lure Bill away from the mountain lairs. "Swede" Johnson's name was also mentioned and the reason asked why he was not in uniform last winter.

Coleman Wins The Mutz Cup

Win Against Fernie Footballers By Score of 3-2. Anderson Makes Good As Goale for Coleman.

Coleman Rangers gained their second win of the season as they annexed the Mutz cup from Fernie at the local ground on Sunday. A large crowd turned out to give their support. Two goals by Knight and one by Walker were sufficient to give Coleman a 3-2 decision.

Both teams played smart football and Anderson, pressed into the game at the last minute to play goal for the locals, gave a masterful display of goal-keeping and was a big factor in his team's win. Fernie went into the lead midway in the first half on a goal by Atkinson. A minute later Knight diverted Troman's cross past Oakley in the Fernie net to tie the score. Both teams fought on even terms during the rest of the half.

Walker put his team ahead early in the second half with a shot which bounced over Oakley's outstretched body. Both goals were threatened on a number of occasions, Troman having poor luck with two shots which rebounded off the cross-bar. Knight made it 3-1 for Coleman on a solo effort which had Oakley completely outguessed. Fernie took the offensive, and in an effort to catch Troman miscalculated the ball, it sailing back towards his own goal where Hughes booted it past Anderson. Final score 3-2 for Coleman.

The same teams will meet at Fernie Sunday at 3:30 p.m. in another cup.

LOCAL NEWS

Mr. and Mrs. Robt. Morris were Lethbridge visitors on Saturday.

Mr. and Mrs. Fraser McLeod and daughter, Alwyn, accompanied by Mr. A. H. McLeod, left Sunday morning for the Pacific coast.

Mr. and Mrs. Sam Howarth and son John, accompanied by friends are touring part of the States, leaving here on Sunday for Yellowstone Park.

Mr. and Mrs. Tom Holstead and Audrey, accompanied by Jack and Mrs. T. Brown, of Spring Point, motored to Spokane this week.

Schools Will Re-Open Next Wednesday

SCHOOLS WILL re-open on Wednesday next, Sept. 1st. The town will resume its normal activity. Teachers and children will be seen hurrying along in the mornings, and the tardy ones, of which there are always some, will be seen speeding up to beat the bell. After two months freedom from lessons and school discipline the ambitious pupil will welcome re-opening. The summer season passes very quickly, but leaves pleasant memories of new experiences and fresh acquaintances. There is always next year to look forward to, and anticipation is a pleasure, no matter if

BING CROSBY in
'Pennies From Heaven'

Youth Training Program Signed By Ontario Government

Ottawa.—A youth training program involving \$500,000 has been signed between the Dominion and Ontario governments. It was announced by Labor Minister Rogers.

The agreement, which remains in force until March 31, 1938, calls for \$50-50 expenditure by the two governments with Ontario paying administration costs.

Among the projects which have been approved are:

1. Forest conservation work to provide a practical course in forestry for approximately 350 young men.
2. Technical training in mining to a selected group of 50 designed to fit them for positions in the mining industry.

3. Rural training, providing practical courses in subjects related to agriculture for young men. These courses will be established in various parts of the province. There will also be courses for rural young women in homecraft, household economics and other suitable subjects.

Through the provincial agricultural representatives provision is being made to give 500 young men training in farm work by placing them with carefully selected farmers.

4. Industrial apprenticeship to help train young men or women in skilled or semi-skilled employment by paying the cost of their instruction either in special classes in technical schools or in periods of instruction in the shop or factory.

5. Women's specialized training. Schools for training household workers will be established in some of the larger cities of the province with a qualified staff in charge.
6. Urban technical occupational training. To provide courses of practical training in the technical schools and elsewhere to help young people fit themselves for employment opportunities in the area.

These projects are open to unemployed young men and women between the ages of 18 and 30 with the selection made by the province without discrimination or favor in relation to their social origin, religious views or political affiliations.

Unable To Serve Country

Japanese Commits Suicide Because Health Kept Him From Fighting Tokyo.—Death brought an end to Reserve Captain Morio Hirotsu's grief over his inability to fight for Japan in its present armed struggle with China.

The Japanese officer committed suicide on the Tokyo parade grounds. Before turning his sword upon himself in accordance with the ancient Japanese suicide ritual the officer had informed friends his decision to take his life was due to the fact he "could not serve his country in its present hour of trial owing to bad health."

Warning For France
Gibraltar.—General Gonzalo Queipo de Llano, southern insurgent commander, declared that "France's day of reckoning is not far off." He asserted in a broadcast from Salamanca that France was a bad neighbor and always acted against Spanish interests.

Effect Of Moon On Crops
Washington.—Planting potatoes in the dark of the moon is no insurance of a good crop, the Smithsonian institution solemnly declared. Many old beliefs that moonlight influences plant growth were analyzed for the first time by an institution scientist and found to be erroneous.

Claim Made That H. B. Route Safe As That Of St. Lawrence

Ottawa.—The Hudson Bay shipping route "is no more dangerous, and in some respects less dangerous than the St. Lawrence route." It was stated in a report of the Imperial shipping committee released here.

The committee, which sets insurance rates for the far northern shipping lane, reported a fast modern tramp steamer would have no difficulties in making three round trips between Churchill and Europe in the official navigation season, from Aug. 5 to Oct. 15. The committee recommended gyro compasses for ships on the route, in fact made reductions in insurance rates for vessels equipped with them.

Plague Hits Hong Kong

Cholera Epidemic Rapidly Spreading And Many Deaths Reported

Hong Kong.—This British colony was gripped by a cholera epidemic. The disease has spread through the island. Scores of new cases have been reported daily with 80 per cent of them ending in death.

The plague struck Hong Kong, spread to the Portuguese colony of Macao, on a mainland peninsula, and reached out up the Pearl river to Canton, China.

Shipping officials here expressed fear it would be necessary to cancel all calls at this port and to quarantine ships which already have arrived. China National Airways Corporation planes transported 600 pounds of the serum to Hong Kong just before the outbreak of the Shanghai fighting.

Special appeals were made to other far eastern ports to rush more vaccine by air to combat the plague.

A Singapore despatch said medical authorities there were preparing a shipment of 250 litres of serum. Reports received there from Hong Kong there were 136 cases of cholera recently, 82 of which proved fatal.

Thousands of refugees from Shanghai were inoculated before landing here while thousands of others flooded the government's 50 medical centres for free treatment.

Breaks With Czechoslovakia

Portuguese Government Breaks Off Diplomatic Relations

Lisbon.—The Portuguese ministry of foreign affairs handed the press a communique announcing that the Portuguese government had broken off diplomatic relations with Czechoslovakia.

The Portuguese minister to Prague, capital of Czechoslovakia, left Prague, the government announced. The Czechoslovakian minister here will leave Lisbon shortly.

(The despatch, presumably correct, did not give any reason for the severing of diplomatic relations between the two widely-separated countries.)

London.—The action of the Portuguese government in breaking off relations with Czechoslovakia came as a complete surprise here. There has been no hint of dispute between the two countries so far as is known.

Pending receipt of more definite news from Lisbon, foreign observers speculated whether the rupture might have been the outcome of two recent events—a series of bomb explosions in Lisbon last January and shipwreck attacks on the Portuguese ship *Salazar's* life—the government claimed foreigners were implicated in both events.

Grant For Veterans

Sum Of \$25,000 Approved By Administrators Of Service Fund

Ottawa.—A grant of \$25,000, to be disbursed for the benefit of former imperial soldiers in Canada, has been approved by administrators of the United Services Fund, according to advices from London, received by Dominion headquarters of the Canadian Legion. The money will be applied to needy ex-imperialists by trustees appointed by the administrators. The grant follows representations made last May by Brig-General Rambotham, British minister of pensions, and to the British Legion.

"Eight seasons have passed," the report stated, "since the new route was opened. The way is well charted and well equipped with aids to navigation. There are no exceptional circumstances on account of which the warranty is imposed—ice, fog and magnetic disturbance—are known and have been provided against by the gyro compass. We are convinced that the Hudson route is no more dangerous and in some respects less dangerous than the St. Lawrence route. As against this, there still remains the fact that with the present small number of voyages, a single total loss in one season is a serious matter for the underwriters." 2217

Conditions Are Encouraging

Sir Edward Beatty Thinks Canada Making Excellent Recovery Sudbury, Ont.—Sir Edward Beatty told the board of trade here three-quarters of Canada was showing "excellent recovery," but that the other quarter needed help. He said he believed "that help should be generous."

Based on his own observations, the president of the Canadian Pacific Railway said the Maritimes were enjoying exceptional prosperity; in Quebec and Ontario conditions were good with slight labor difficulties; in Manitoba crops were good; in Saskatchewan conditions were bad and in Alberta crops were spotty; British Columbia was showing great recovery.

"We in eastern Canada have no excuse for not giving the west our support," Sir Edward said. He held hope the drought had been broken, adding "at least it has shown that it can rain."

One of the major problems of the day, he said, was redistribution of the financial responsibilities between the federal and provincial governments. "I hope it will be more equitable than it is today," he said in referring to a special distribution which may follow royal commission investigation of the Dominion financial set-up.

Retirement Of Judges

New Legislation Governing Act Proposed To Bar Association

Toronto.—New legislation governing the retirement of judges was proposed in a report to the Canadian Bar Association from its committee on the administration of civil justice.

The report said successive amendments to the Judges' Act had had undesirable results in that they discouraged the retirement of provincial superior court judges who might otherwise have retired on adequate annuities and led to the return to practice of retired judges of the supreme court of Canada. Such results were not conducive "to the efficient administration of justice."

Schoolhouse For Goldfields

New Mining Town To Have Fully Modern Building

Regina.—With a \$5,000 bond issue authorized by the Local Government Board and, better still, fully subscribed locally, Goldfields, new mining town on the north shore of Lake Athabasca, is going to have a fully modern school building open in the coming winter. It will be by far the most northerly public school in Saskatchewan.

Unofficially, it has been reported that two big mining companies operating in the Goldfields district guaranteed the bonds.

Must Leave Germany

Correspondent Of London Times Served With Expulsion Order

London.—Norman Ebbitt, Berlin correspondent of The Times, was ordered by the German government to leave the Reich within three days, despatches from Berlin said.

The expulsion order was served on the correspondent by an officer of the secret police. No appeal against the expulsion would be considered, the order said.

MAY BE SPEAKER

If the Ontario Liberal Government is returned to power in the forthcoming provincial general elections, it is understood that Daniel W. Lang, K.C., will be appointed Speaker of the Legislature.

Epidemic Is Serious

Large Number Of Horses Dying From Strange Disease

Winnipeg.—The serious epidemic of encephalomyelitis among horses in Manitoba threatened to handicap harvesting operations as farmers prepared to reap one of the biggest crops in Manitoba in years.

The strange horse disease which took a 20 per cent death toll of horses affected in 1935 in central Canada has reached epidemic proportions in both Manitoba and Saskatchewan, reports said. Scarcity of serum to battle the disease gave added concern.

Scores of deaths in rural Manitoba districts and more than 15 known deaths in Saskatchewan have prompted veterinarians and government authorities to take action to prevent further spread of the disease.

Steering Committee

To Be Formed In Connection With League Of Nations In Canada

Ottawa.—The steering committee of the recently-created committee of national participating organizations, League of Nations Society in Canada, will hold its first meeting here Aug. 31, it was announced.

Five national organizations which constitute the committee are: The Canadian Teachers' Federation, the Council for Social Service of the Church of England in Canada, the Dominion command of the Canadian Legion, the National Council of Women and the Trades and Labor Congress of Canada.

May Buy French Island

Report States Lindbergh Is Considering Purchase Of Millo

Paris.—Col. Charles A. Lindbergh was reported to be negotiating for the purchase of Millo, a small island owned by Aristide Briand, near Tiberdun on the Breton coast.

The newspaper *Le Journal* published the report in a special despatch from Perrosguere, saying its informants believed the flyer would buy the property to be near Dr. Alexis Carrel with whom he has collaborated in scientific research. Dr. Carrel has a residence on St. Gildas island nearby.

Fierce Fires Rage As Japanese And Chinese Struggle In Shanghai

Canadian Unity

Has A Firm Basis In Her Natural Products, Says Speaker

Lake Couchiching, Ont.—Canadian unity has a firm basis in her natural products, Prof. Kenneth W. Taylor, of McMaster University, Hamilton, Ont., said in an address before the Canadian Institute of Economics and Politics.

"Canada is divided naturally into a half dozen distinct areas and each has its peculiar structure, its own climate, its own resources and economic problems, but the country as a whole is a producer and exporter of raw materials," he said.

Canada has always been dependent on a small number of staple products exported to the world, he said. In the 18th century the exports were fish and fur followed a few years later by lumber. After the turn of the present century wheat became a major factor and Canada's economic system was now geared to wheat and fluctuated with it.

The last few years have seen addition of a few new staples, mainly power, pulp, and paper, to which were added base metals.

"Gold has provided a cushion for Canada during the depression but I do not think it will play as big a part in the future as will base metals," he said.

"Fifty per cent of the goods handled are transported in 10 weeks of the year and this involves a tie-up of a huge investment in railway and boat and harbor equipment for the other 10 months of the year."

"Canada is and always will be extremely vulnerable to a world economic crisis. Although her export trade is only 25 or 35 per cent of her total trade, the 65 or so per cent that constitutes her internal trade is almost entirely dependent on that export trade. For example, the sale of agricultural implements from the east to the west depends upon the amount of wheat the western farmers export."

Rescue Party Ends Search

Finds Timberman's Body Crushed Under Gravel In B.C. Mine

Wingdam, B.C.—Tired rescue parties ended a frantic 15-hour search when they discovered the body of Hugh F. Cameron, timberman, crushed under piles of gravel in the Wingdam mine of Lightning creek in the Cariboo district.

From the time first word reached the surface that Cameron had been trapped in a slide, only slight hope was held he might still be alive, mine officials said, but 30 mine comrades bottled slithering gravel 125 feet underground in case he might have survived the first fall of rock.

A few moments before the slide his working partner, Andrew Dean, had left the workings. Dean said "everything was all right when I left."

The body was found shortly after midnight. Injuries probably proved fatal instantly, officials said.

A Special Session Of Alberta Legislature To Clear Up Situation

Edmonton.—A special session of the Alberta legislature was announced by Premier Aberhart to meet the situation created by federal disallowance of the province's legislation licensing bankers.

Premier Aberhart announced after a cabinet meeting a reply to the federal government's action would be sent to Ottawa and the special legislation session would be called as soon as possible after negotiations with federal officials had been completed.

The special session would "clear up the situation" arising from disallowance of the three acts dealing with bankers, said Mr. Aberhart, although he could not state just now the nature of the legislation that might be passed.

The cabinet meeting was held after Premier Aberhart returned from being in the north of here, and Hon. Lucien Maynard, minister of municipal affairs, came back from Lacombe, 90 miles south of here, where they addressed meetings.

Efforts to establish Social Credit in Alberta would be made despite federal disallowance of the legislation.

Shanghai.—Disastrous fires ravaged one-fourth of Shanghai on both sides of the Whangpoo river, touched off by bombs or shells of Japanese and Chinese forces struggling for possession of the city.

A huge British-owned cotton warehouse in Pootung went up in flames, casting a dancing light on British and French warships anchored nearby.

A mile-long stretch of Broadway, on the opposite bank, was consumed by a blaze that Chinese sources said was set by Japanese using every weapon at their command to stave off a Chinese wedge between their Hongkong and Yangtzeport forces.

Havas News said it was estimated 70 per cent of all British investments in Shanghai were seriously endangered by the widespread fires which there was no means of combating.

Emergency fire brigades did what they could to keep the warehouse conflagration from enveloping the entire crowded Pootung section, targeted for nine days of pounding by Japanese warships and planes seeking to destroy Japanese troops entrenched there.

Two international incidents marked the bitter fighting. The cruiser *Augusta*, flagship of the United States Asiatic fleet, was struck by an anti-aircraft shell that killed Fredrickson, 21-year-old seaman, and wounded 15 of his 200 crew mates.

(In Washington a cabinet minister said the cabinet was informed the shell was Japanese.)

A British soldier, whose name was not immediately available, was slightly wounded in the head by a shrapnel fragment while guarding a Japanese mill west of the international settlement.

A Chinese spokesman said 11 Japanese planes dropped poison gas bombs during an attack on Kiangyin, near the mouth of the Yangtze river.

General Chang Chi-Chung, commander-in-chief of Chinese forces here, declared China was bound to emerge victorious from the undeclared war with Japan. He predicted a speedy Chinese victory in the Shanghai area but said the war throughout China might last all of three years.

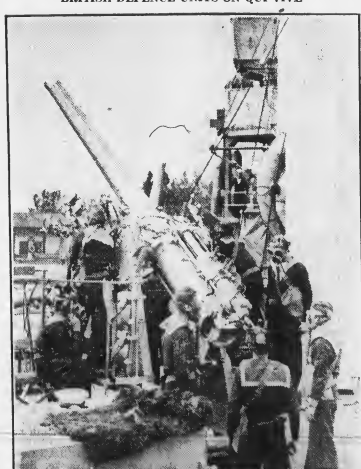

Three Chinese planes failed in an attempt to bomb the Japanese flagship, the cruiser *Idzumo*, anchored near the American cruiser. The bombs dropped perilously close to Japanese munitions depots.

The Chinese drive to cut out further wedges in the Japanese forces stirred Japanese counter attacks that forced the Chinese to retreat northward and entrench themselves along Howa and North roads, parallel with Broadway.

Chinese mobs grew increasingly threatening. French soldiers mounted machine guns about the Japanese ambassador's residence in the French concession.

Fearing Chinese might attempt to rush the building, the French ordered the steel gates barred and placed armed guards on every corner in the vicinity.

BRITISH DEFENCE UNITS ON QUI VIVE

Jack Tara on board H.M.S. "Curlew" practise repelling aerial attacks with new and deadly anti-aircraft guns. Equipped with gas masks and all the latest electrical devices for detecting the approaching "enemy," these gun crews are ready for any emergency.

NOTES ON OUR TRAVELS

Halifax, Thursday, August 12th, 1937

Nova Scotia---Land of Historic Romance

Our previous letter concluded with arrival at Montreal, where among others of the newspaper fraternity we met Editor Bartlett of the Blainmore Enterprise, who had come from the west direct by rail, with several others from Alberta and Saskatchewan. Meeting him the morning after arrival, he like others accustomed to the brisk air of the mountains complained of the humid heat of the eastern cities, where it does not cool off during the night. In order to try and get relief from the oppressive heat he sat on a garden seat in Dominion Square in Montreal till 3 a.m., finding the hotel too hot to sleep in.

At 12.30 p.m. on Aug. 10 all who had assembled in Montreal from the western provinces and Ontario, also a number from the province of Quebec, departed on a special train for St. John, N.B. J. Harry Smith, manager of the Press Bureau of the C.P.R., Montreal, accompanied the party, acting as official host on behalf of the company, in which capacity he is indeed popular.

Crossing the mighty St. Lawrence a pleasant journey through this portion of the French speaking province of Quebec was made to Megantic, where the railway enters the state of Maine, the principal city passed through enroute being Sherbrooke, which was celebrating its centenary. Our schedule did not permit of a brief stay there, so we had to content ourselves with viewing the decorations and observing the factories of this manufacturing centre. For 222 miles the Canadian Pacific runs through the state of Maine, entering New Brunswick at McAdam Junction, thence it is 84 miles to the seaport city of St. John, which was reached shortly before 6 a.m.

A thick fog covering the city, we saw little of it, and proceeded direct to the C.P.R. steamship "Princess Helene," a sturdy steamship over 300 feet long similar to the "Empresses" of the Pacific coast operated by the C.P.R. It is an oil burning steamer, with spacious decks for promenading. Breakfast was awaiting us on board, which was heartily enjoyed after the all night train journey, the salty air of the Bay of Fundy adding to the keenness of our appetite. We had previously crossed this stretch of water between St. John, N. B., and Digby, N. S., in 1923, when it was just as foggy as on this trip, and the ship's siren kept sounding at one-minute intervals almost the duration of the 40-mile trip across the rolling sea. Very obligingly it lifted as we approached Digby Gap, and the sun shone brightly as we reached this Nova Scotian fishing village of about 2,000 population. Here the tides rise to a height of 40 feet, the highest in the world. Having left St. John at 7 a.m., we reached Digby shortly after 10 a.m., and the entire press party of about 200 were the guests of the C.P.R. at a luncheon served in the "Pines" hotel, a beautiful building not unlike the Empress hotel at Victoria, though not as large. Its walls are covered with ivy, making it very attractive. The waitresses wore costumes of the period of Evangeline, they evidently being young ladies from the various colleges of Nova Scotia, very polite and courteous and attentive to the wants of the guests. A very fine orchestra entertained the party with songs and music during the luncheon. During our brief stay some of the younger members of the party disported in the fine pool, and would fain have lingered for awhile longer.

But train schedules must be adhered to, consequently at 1 p.m. "all aboard" was called on a special train on the Dominion Atlantic Railway. For several miles the train skirts the Bay of Fundy, while on the other side of the railroad are seen fine farm lands producing crops of hay and grain which made one involuntarily turn his thoughts back to the dried plains of Saskatchewan, where there isn't sufficient grass for cattle grazing. Here there seemed to be peace and contentment, where oxen are used to carry on work on the land, and where nobody appears to be in a hurry.

Our first brief stop is Annapolis Royal, the "Port Royal" of the French, established in 1604 by Pierre du Guast de Monts, Lieutenant of the King of France. It was the first permanent European settlement in America, after St. Augustine, Florida. Much interesting history centres around this old town, and the old fort and officers quarters remain to this day, now used as a museum.

Proceeding onwards another 78 miles, the village of Grand Pre is reached. All who have read Longfellow's poem, "Evangeline," will recall his story of the expulsion of the Acadians from this peaceful country, which took place in 1755, when nearly 3,000 Acadians were deported. It would take too long in a review of this nature to begin to tell the tragic story of the expulsion, which remains for all time the most tragic occurrence in Canada's history.

During our half hour stay here, a guide pointed out the points of interest, the beautiful statue of Evangeline, the work of Henri Hebert, one of Canada's foremost sculptors and a direct descendant of the Grand Pre French; the well

Canadian Editors Enjoy Visit to Digby, N.S.

The most charming spots of the Dominion. Golf on the hole-in-one course, horse back riding, motorboating, and hiking, swimming in the warm salt-water of the open-air pool, and fishing are among the many attractions of this popular vacation spot. This summer the hotel, which remains open until September 11, has housed hundreds of guests enthusiastic about the charms of the Maritimes as a holiday resort.

For visiting westerners the charm of the Maritimes begins at St. Andrews-by-the-Sea, New Brunswick's leading resort because of its splendid position on the Bay of Fundy and the facilities for holiday pleasures at the Algonquin Hotel there. Fishing, boating, riding, golf and other sports occupy the time of more energetic visitors, while others delight in nothing more than soaking up sunlight on the sandy beach of Katy's Cove. The proximity of President Roosevelt's summer home at Campobello is an attraction for Americans.

The most interesting points in Nova Scotia can be reached by the Dominion Atlantic Railway, with comfortable headquarters available at Lakeside Inn at Yarmouth, the Pines at Digby, and the Cornwallis Inn at Kentville. The country, on the southwestern tip of the province, is on the picturesque coastline. Tuna fishing is a popular sport for the more adventurous, while there are opportunities for other summer pastimes. Cornwallis Inn in the centre of the Annapolis Valley and the Land of Evangeline is the favorite resort for visitors who want to see Grand Pre, where the Evangeline Memorial Park enshrines a perfect replica of the old St. Charles Church, in which Evangeline and her compatriots worshipped before they were sent from the country. There are many other beautiful drives in the district.

(Continued from Column 1)

from which the British troops obtained their water and the memorial church in which are housed many interesting pictures, writings and relics of the Acadians.

We are loath to leave this beautiful and historic spot, and so we again entrain for the capital city, Halifax, which is reached as darkness begins to cast its spell over this beautiful province which is the cradle of early Canadian history.

Local News

Mr. and Mrs. Tom Brennan were recent visitors at Banff.

Mr. and Mrs. A. M. Morrison were Lethbridge visitors during the week.

Jim Kellock and Jack Joyce are spending two weeks holiday on a motor trip to Seattle and other cities in the western States.

Messrs Arthur and Edgar Reid left Monday for Vancouver where they will visit Mr. and Mrs. Harold Reid and Mrs. Edgar Reid.

Approximately fifteen "stop" signs are being placed at various side streets leading on to the main highway by the town council.

Some children were responsible for setting fire to the tennis club shack this week. Luckily several junior players arrived at the courts before it got a good start and quickly extinguished it.

Mrs. Wm. Bell and daughter Mae, and Mrs. J. Kinnear sailed from Glasgow on Saturday, Aug. 21, for Coleman. Mrs. Bell and Mae intend to stop over at Toronto to visit relatives and the Toronto exhibition.

Miss Margaret Allan returned on Wednesday from a seven-weeks tour with a party which started from Calgary early in July, and which visited cities in Eastern Canada and the United States. She thoroughly enjoyed the experience, and many interesting spots were visited.

Salvation Army Officers Leaving

Lieut. Fitch, for two and a half years in charge here, will be transferred to Olds, and Lieut. Frayne, after a year's service here, will be transferred to Hanna. Both have been very energetic in promoting the work of the Army in the Pass towns, gaining new friends and additional support towards its world-wide welfare work. The farewell services will be held on Sunday, Lieut. Mattson of High River will take charge here and will arrive next week.

The departing officers desire through The Journal to express their appreciation of co-operation from Coleman friends.

Newspaper Advertising Efficient

More and more merchants are swinging away from the old-fashioned method of advertising through the distribution of bills to homes to newspaper advertising. It is not to be wondered at. When circulation is considered newspaper advertising is much cheaper and outside of announcements of entertainments, sporting games or such, is a much better form of advertising. Newspapers are kept and read, not thrown away as handbills delivered from house to house frequently are. Weekly newspapers offer the best advertising value, because the issues are kept for a week and generally referred to constantly.

Local News

Mr. and Mrs. Ralph Best and family, of Ventura, Cal., are the guests of Mr. and Mrs. Alex L. Easton this week. Mr. Best is a former employee of the Union Bank and was stationed in Blairmore and Bellevue, going overseas with the 192nd Battalion, and since returning from overseas has resided in California.

PRINTED POSTERS COMMAND ATTENTION

There is nothing to equal a well printed poster from The Journal office to advertise dances, socials and other events, besides display advertising in this paper. Good printing gives a good impression of that which it advertises, and you get THE BEST at this office.

Journal Advertising Gives Prestige to Enterprising Retailers.

Advertising messages set up in attractive type, clearly printed, cannot fail to impress prospective purchasers. As clothes create a good impression, so does attention-compelling advertising in your weekly newspaper. It is a very welcome weekly visitor in hundreds of homes. Newspaper advertising is THE BEST form of getting your message to the people, and is given careful study by thrifty people.

WORLD HAPPENINGS
BRIEFLY TOLD

The International Boy Scout Conference decided to hold its next session in Scotland in 1939.

Federal relief grants to British Columbia have been reduced from \$150,000 to \$120,000 monthly, it was announced.

Canada's total trade in the first six months of 1937 was higher than in any corresponding period since 1930, the Dominion bureau of statistics reported.

Japanese newspapers reported foreign aviators enrolled in the Chinese air force have been promised a bonus of \$1,000 for every Japanese plane shot down and a much higher reward for each warship sunk.

Diving clear of the wreckage after the cockpit had submerged, Perry B. Hall, student pilot of the Port Arthur Aero Club, escaped injury when the club plane in which he was practicing landings upset in the harbor.

Far below ground in one of the Rand mines in South Africa, a library of 500 books and magazines has been established with one rule—"All books returned before going to surface."

A Boy Scout world census just finished shows an increase in membership of 340,000 in two years, bringing the total to 2,812,074. The United States has most scouts, with 1,107,558.

The Department of Labor announced that the number of strikes and lockouts recorded in Canada in July was 37, involving 6,411 workers and causing time loss of 69,276 man working days.

The average export prices of Canadian wheat during the crop year which ended July, 1937, was \$1.3 a bushel, according to a report issued by the Dominion bureau of statistics. For the two preceding years it was 82 cents, and in 1934 it was 71 cents.

Seagram Gold Cup

Open Golf Tournament, Sept. 9-11, At St. Andrews, Toronto

The first of the former winners of the title to enter the field for the Canadian open golf championship and custody of the Seagram Gold Cup is Al Watrous of the Golden Hills Club of Birmingham, Michigan, who was the winner at Mount Bruin in 1922 when he finished one stroke in front of Tom Kerrigan with a 72-hole total of 303. He has been a member of two U.S. Ryder cup teams; was runner-up to Bobby Jones for the British open title in 1926 and has a Canadian open record in the U.S. open. Since he first competed in 1921 he has qualified for the American championship every year and only once failed to do so in the sectional qualifying rounds. This year he finished 30th over his home course—his 297 being four strokes outside the money.

Whenever Watrous competes in Canada he is sure to have a considerable number of professional hockey players in his gallery as he is a strong supporter of the champion Detroit Red Wings and knows nearly all the players in the National League. If a Canadian open win at St. Andrews on September 9-10-11 a victory for Watrous would be exceedingly popular.

Paul Runyan, the slight product of Hot Springs, Arkansas, who was the first invader of the Canadian open, is undoubtedly one of the greatest golfers developed in the United States in recent years and his entry, received much attention in advance of the tournament, is an excellent indication that the stars from across the border view the Canadian title and the Seagram Gold Cup as two of the most desirable prizes in annual competition. Although slight of build Runyan gets fair distance off the tee but it is within reach of the greens and on that he is at his best; in fact his approaching and putting are such that he has aptly been named "Little Poison."

Last year he set the record for St. Andrews with a 65, five under par, and this was the second lowest round ever recorded in the Canadian open. He finished sixth last year, and was tied for eighth place in 1935. He has been a member of the U.S. Ryder cup team and was captain of the American professional team that visited Australia in 1934. He was a consistent winner in the winter tournaments this year and after finishing in a tie for 14th place in the U.S. open was fifth in the Chicago \$10,000 event several weeks ago. He is located at the Metropolitan Country Club, White Plains, N.Y.

Makes Strong Liquor

Close guard is being kept by the South African Sugar Association over all treacle supplies in an effort to stamp out a traffic in illicit liquor which is sending the natives of Natal and Zululand raving mad. The spirit made from treacle, popularly known as "gavini," is so strong that it can easily be ignited by a match.

The British film institute is to preserve permanently the two color films taken of the Coronation procession.

Night time, according to law, is from one hour after sunset to one hour before sunrise.

TOPICS
OF
VITAL
INTEREST
by Dr. J. W. S. McCULLOUGHARTICLE No. 7
CANCER RESEARCH No. 1

The marvels of the telegraph, the telephone, electric light, wireless and the radio, were discovered only after long preparation of the ground-work in physics. The discovery of insulin was made possible by a considerable preliminary ground-work which aided its discoverers in forging the final link.

In the infectious diseases a similar ground-work was established by the discovery of bacteriology, the life study of the immortal Pasteur. It is through this work that either by the prevention of infection or through direct attack by means of curative serums, that diphtheria, lock-jaw, typhoid fever and pneumonia have been brought more or less under control. There are strong hopes that by the efforts of research workers, cancer too, may yield up its secrets.

Cancer, in the opinion of most scientific workers, is not a single disease; it is rather a group of diseases, each one of which may have a cause or group of causes. It arises in the body itself and so far as known, has no direct cause such as a germ, to produce it, although outside agencies (such as irritants of various kinds) may have a part in its causation. It appears in humans otherwise apparently well; it may be born in a child. The disease seems to be one of life and growth resembling in many ways the growth of a child in the mother's womb, but with the difference that, while the child has a father and mother, the cancer has no father—only a mother; the mother being the tissues of the body which in some way have changed so that the microscopic cells which compose these tissues can grow uncontrolled. Since cancer is a part of our own bodies and is derived from them, it obviously cannot be very different from the healthy cells from which it grows.

Next article: "Cancer Research No. 2."

Editorial Note: Readers desiring the complete set of Dr. McCullough's cancer articles at once may secure same by writing to: The Health League of Canada, 105 Bond St., Toronto, Ont.

When Beds Were Beds

To-day it is easy to make up a neat bed, but in the old days of plump featherbeds, bed-making was an art. It took experience and skill to put the feathers where they belonged and to make it smooth with square corners. Then there were the pillowcases, stiffly starched, that must be placed just so, without a wrinkle.

The "multiplication table" of the home cook is—three teaspoons make one tablespoon; 16 tablespoons make one cup; two and a half cups make one pint; five cups make one quart.

The modern secret ballot was first introduced in South Australia in 1856 and even now is generally referred to as the Australian ballot.

Centralizing Government

Many Things To Be Considered Before It Would Be Feasible

Paul Gouin, son of the late great Sir Lomer, and a political figure of some consequence in Quebec, thinks we should solve a lot of our difficulties if Canada were divided into five "sections" instead of the present nine provinces. He would do this by merging the three Maritime Provinces, likewise the three Prairie Provinces.

Mr. Gouin's idea is not entirely new. Indeed, it has long been in the stock-in-trade of those good people who seem to think that a political or economic difficulty can be solved by shifting a political boundary, by those other good people who seem to imagine that all the problems of government and democracy are represented by dollars and cents.

The merging of the three Prairie Provinces and the three Maritime Provinces into two provinces, one in the East and one in the West, might save some money (though not as much as some people imagine). But it is just possible that the seeping of a few hundred thousand dollars a year would be heavily outweighed by a discontent which, in any democracy, is far more to be dreaded than the expenditure of money. That is something too many of our would-be political designers seem entirely to overlook.

In government, in these days, there is much to be said for centralization—in certain fields. But there is just as much to be said, if not more, for decentralization in other fields; for that local autonomy which, under democratic government in far-flung communities, seems essential to government with the consent of the governed. Essential also to interest in government.—Ottawa Journal.

Rather Hard To Explain

Man Detects Counterfeit Coins Only When Watching Passer

Police can't explain this but may be a psychologist can. A man walked into a tobacconist's shop, bought a dime's worth of cigarettes and flung down a half dollar. The salesman's ear heard something wrong with that money. He looked his customer over, got a good description of him, gave him 40 cents change and had the half buck tested. It was a phony.

He expected the customer back again and in a few days he came, gave him another half dollar to pay for fags. Police got him before he left the shop.

Brought to headquarters the man admitted being a counterfeit passer but his fake money was so good it was difficult for experts to detect its flaws. . . . yet the tobacconist nailed him on the first coin.

So the tobacconist was told to stand in a corner of the detective office while an officer tossed out half dollars; some counterfeit, some good. With his back turned he was to call the coins . . . good or bad . . . as they fell. He was wrong often, but he was right.

Watching the man toss out the coins he called them every one; good or bad as they fell. With his back turned he guessed wrong often, but right. What's the answer?

Japanese Police Ride

Until recently, Tokyo's police officers walked their beats and presumably ran after lawbreakers. But Tokyo, like other great cities, has learned that the guardians of the peace must move as swiftly as those who would break it. Hence the new bicycles. And now, perhaps, Tokyo hopes that the criminals meet no motorcycle policemen until the "bikes" are worn out.

MAKE THIS MODEL AT HOME—
GAY BLOUSE LIVENS UP
SUIT OR SKIRT
By Anne Adams

A fashion-right costume is yours when you've stitched up this stunning blouse, for whether it will top a simple skirt, or enhance your new or last year's suit—Pattern 4481 is ideal for all occasions. Wear it over a very festive vest, or plements you'll receive. Wouldn't it make a shiny, festive satin or heavy crepe or tulle blouse? Soft crepe or tubular synthetic will prove perfect for daily wear, and this pattern is so easy to follow, that stitching up several versions will be "all in a day's work". Choice of sleeve lengths, too! Pattern 4481 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 takes 2 1/2 yards 39 inch fabric. Illustrated step-by-step sewing instructions included. Send twenty cents (20c) in coin or stamps (coin preferred) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number, and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Strict Highway Laws

English Courts Show Little Leniency To Careless Drivers

An English court refused a man permission to appeal his conviction for dangerous driving, whereby he was imprisoned for 12 months and disqualified as a driver for 15 years. He was driving very fast along a straight road, late at night, when his car knocked down a woman, who died as a result of the accident. It was described by one of the judges as the worst case of dangerous driving that could be conceived. English courts certainly do look at such accidents differently than do Canadian courts. Imagine a Canadian going to jail for a year and losing his driver's license for 15 years because he ran down and killed a pedestrian.—Amherstburg Echo.

Heien—"Does your fiancé know much about automobiles?"

Carl—"Great Scot, no! She asked me if I could meet her by stripping the gears."

An elephant's trunk contains about 40,000 muscles.

SUNDAY SCHOOL LESSON
AUGUST 29

GOD CONDEMNS INTemperance

Lesson: Psalms 101: 2, 8-11; Proverbs 31:4, 5; Isaiah 28:1-8; Romans 14:21.

Evangelical Reading: Isaiah 28:1-4, 7.

Explanations And Comments

Regulations Violated, Leviticus 10: 1, 2. It was on the very day when their consecration to the priesthood was solemnly ended, when as yet the echoes of the people's glad shouting had scarcely died away, that Nadab and Abihu wilfully offered in the sanctuary strange fire which the Lord commanded not. Wordsworth suggests that perhaps they were altered above measure, and were tempted to imagine that they were not bound by ordinary rule in the discharge of the duties of the priest's office. How their offering disobeyed the regulations can only be guessed: perhaps it was not taken from the altar, perhaps it was not offered at the right time, or it may have been, as inferred from verse 9, that they were guilty of influence of wine when they made the offering. Evidently the last supposition was accepted by the Lesson Committee when they assigned these verses for our temperance lesson. Verse 2 would teach the God is a consuming fire who will not sanction any violation of his holiness and majesty. The greater the holiness, the nearer they were to God in his worship, the greater their responsibilities, the greater their sin.

Woe to the Drunkards, Isaiah 28: 1-8. The time is the early years of Hezekiah's reign. The prophet Isaiah is speaking to the leaders of Judah in their capital city of Jerusalem, and directing them to turn their thoughts to the drunkards of Ephraim, the leading tribe of the Northern Kingdom, whose name often stands for the whole kingdom. In the first verses he denounces "the drunkards of Ephraim" and announces the coming of a terrible day for them. Samaria had a commanding position crowning a low hill in the heart of the valley, its slopes terraced with vineyards and gardens, and Isaiah terms it "the head of the fat valley." In the seventh and eighth verses he turns to Judah and declares that the Judeans, and especially their rulers, are not less culpable by wine than are the people of the Northern Kingdom.

Abstinence for the Sake of Others, Romans 14: 1-13. Paul wrote his letter to the Romans to prepare them for his coming and to counsel them in matters which he knew they needed guidance. One of those matters concerned the eating of meat. There were among them who believed it wrong to eat meat which had been offered to idols. Their scrupulous observance were to be regarded by those who believed that they might eat such meat without defiling themselves. Paul laid down the great principle of abstinence for the sake of others. As Moffatt translates our verse from Romans 14, the rule of the Christian is to abstain from food or wine or indeed anything that your brother feels to be a stumbling block. Compare 1 Cor. 8:13.

Tribute Well-Deserved

Special Coin Will Honor Philanthropist Of Edincoff, N.Y.

Anniversaries and extraordinary occasions are frequently marked by the striking of special coins—quarters, half-dollars or dollars—and though tributes of this sort are less common for living persons, they are not unknown. A bill was introduced in the Senate authorizing the coinage of a special 50-cent piece in honor of George F. Johnson, shoe manufacturer and philanthropist, of Edincoff, N.Y. Next October he will be 80; the coins would mark not only four-score years but also a record of humanitarianism.

In the shoe factories where Mr. Johnson has made a fortune there has been harmony between boss and worker, and in the community round about there have been parks and playgrounds, libraries and hospitals. All have expressed the Johnson philosophy, which was once summed up: "Give a man a decent income and he will learn how to spend it decently; give him leisure in a decent community and he will learn how to employ his free time."—New York Times.

Curiously Rewarded

A woman was very ill. Her doctor brought a specialist to see her. She had warned her sister to hide behind a screen in the drawing-room, in order that she might overhear their opinion when in consultation after examination.

When the doctors came into the drawing-room the specialist said: "Well, of all the ugly-looking women I ever saw, that one's the worst."

"Ah," said the first doctor, "but wait 'till you see the sister."

Watch a jackrabbit scampering away and you'll note that on every sixth stride he'll leap higher in the air to get a good look at his pursuers.

Two of the most famous railway stations in Britain—Euston and Crewe—have celebrated their hundredth birthdays.

THE CANADIAN ADVENTURE
TRIP OF BOB SIM, AN
ONTARIO FARM BOY

No. 10 of a Series of 16 Letters

Bob finds Western welcome—floats lake raft on a river—meets a tribesman—preaches sermon. A very versatile lad!

Lloydminster, Sask. (Special Despatch by Bob Sim).—At a little grocery store in Lloydminster, we bought some supplies at the door where we were in Alberta, on the doorstep we were in Saskatchewan. We bought a meal to-day as it was raining, but ordinarily we cook breakfast and supper, filling in at noon with a snack. We leave the central prairie province to-day after driving over six hundred miles on all types of roads, entering it at the lower south and leaving at the north-western end. In that time we have not seen a single good meal, not a decent bumper crop. Yet we have not met anyone who showed evidence of defeat. Now we are in the heart of the province, for others the eighth; some are drawing in their belts, others are leaving the province for good, but for Ontario; but all are united in their confidence in the country and without relief from the monotony of the plains. If you come here with that impression, it is quickly dispelled.

Saskatchewan, Land of Contradiction. Let no man think that this is a great desert with a broken and defeated people, nor that it is a vast prairie extending in all directions without relief from the monotony of the plains. If you come here with that impression, it is quickly dispelled. The first night in the dried-out area we were forced to pitch our tent on account of rain. This was the first night I had slept under canvas since leaving Ontario. We had been going on two days without rain, and had found no difficulty living on a four-mile-a-day schedule.

Beginning in the morning, the seats of the provincial capital and the provincial university, both impressed us with their fine buildings and the ambitious plans which were being carried out in their decoration. There is not, I can safely say, a university in the east with a more beautiful setting, or with finer buildings than the University of Saskatchewan, North of Regina, west of the Watrous Lakes. The trip carried us through a beautiful rolling country with deep lakes and a few small islands in the water. We swam in the Watrous Lakes; a strong wind had lashed the water and it was a little rough, but the Atlantic Ocean, if you can fancy that, was not so bad. The water was so warm that it was a pleasure, for you can lie in it comfortably without fear of sinking. Yesterday it was rough, so we laid in the water and rolled in it in a hot rocking chair; on a calm day on the lake you could have a book or a newspaper, for you can lie in it comfortably without fear of sinking. Yesterday it was rough, so we laid in the water and rolled in it in a hot rocking chair; on a calm day on the lake you could have a book or a newspaper, for you can lie in it comfortably without fear of sinking. Yesterday it was rough, so we laid in the water and rolled in it in a hot rocking chair; on a calm day on the lake you could have a book or a newspaper, for you can lie in it comfortably without fear of sinking.

Land of My Birth

The greatest pleasure of this trip was the visit I was able to pay to my birthplace at Gap View in the Moose Mountains in the south of the province. It was a most interesting running away may have foreshadowed the desire to travel. Several times I got lost in the wheat, a fact that gave the old-timers some amusement in recalling it, so bare are the same fields to-day.

Two solid days were spent visiting old neighbors and relatives. My father's brother and his family took me around to the best of the old golden haunts. One of the pleasures was to call on a girl friend I had not seen since 1914.

It happened that the student missionary was a friend from Ontario. At the home of the boy and the girl, the boys sang a trio and I gave the sermon.

Ho, For The Mountains!

It's on the mountains now. To-day we enter the country of the foothills, on our way to the Alberta capital. We will travel south to the U.S. border, then west in Canada to the Pacific. Many adventures await us, and much beautiful scenery. More of that next letter.

Revival Of The Piano

A Love For Home-Produced Music Still Remains

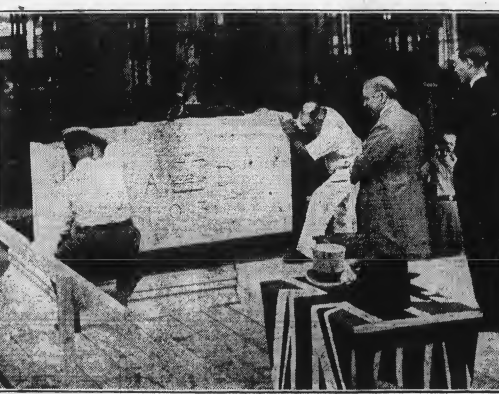

The first six months of 1937 were the best in six months which the United States piano business has had in the past 15 years. Almost 50,000 pianos, it is stated, were shipped in that period.

This indicates that the love of home-produced music was not so easily killed as some people thought. Indeed, it suggests that the high type of music now made available to all through the radio is developing a greater interest in music generally.

Some credit for the revival of interest in the piano is due to the piano makers who have been teaching themselves to to-day's needs—a smaller piano to fit into a small house or apartment, at a price which is within the reach of the average family.—Winnipeg Tribune.

Fooling the tourists, Hamilton, Ontario, has an East Avenue running north and south, a West Avenue running north and south, a South Street going east and west, and the North Street going northeast and southwest.

PREMIER KING LAYS CORNER STONE OF NEW BANK OF CANADA BUILDING

The Right Hon. W. L. Mackenzie King, Prime Minister of Canada, accompanied by Mr. Graham Towers, Governor of the Bank of Canada, stand on the platform at Ottawa while workmen place the corner stone of the new building in place so that Mr. Mackenzie King can perform the ceremony of laying the corner stone.

Trips on The Great Lakes Are Delightful Experience

Among the many unique distinctions enjoyed by Canadians is the fact that though more than three quarters of them live more than a thousand miles from the sea, they are nevertheless a sea-loving race. Fortunately, thanks to the bounty of nature and Canada's ship-masters, and ship-owners, even the most remote Canadian landlubber may enjoy, at small expense, a miniature ocean voyage on the largest inland lakes in the world.

From Duluth and Port Arthur in the west, to Sarnia, Detroit and Windsor in the east, the great lake liners of Canada Steamship Lines operate during the spring, summer and fall on regular schedules. Among their passengers are Canadian and American vacationists enjoying the luxury of cruising the cold waterways to cross-continent, and business people

who break their long journeys by refreshing days and nights on the water.

Canada is known to people below the border and across the seas as a vacation land. Famous everywhere are its lakes and mountains, its beaches and its exclusive resorts. Known to travellers from many lands are its Niagara Falls, its winding St. Lawrence River, its Thousand Islands and St. Lawrence Rapids, the historic and romantic associations of old Quebec, picturesque Murray Bay and quaint Tadoussac, and the mystery and glory of the Saguenay River. For many Canadians living in British Columbia or the Prairie Provinces, eastern Canada is "home," although they may not have seen it for years. By rail or by motor car it is a long journey from the Prairie wheat fields to the eastern fruitlands. By train and

steamer, or car and steamer, the eastern trip becomes a restful, delightful holiday.

Twice a week during the summer months the liners Noronic and Hamonic, the luxury boats of the Great Lakes, pull out of the mountain-shaded harbor of Duluth and sail east. Along the northern coast of vast Lake Superior, biggest of the inland chain, they sail to the Canadian twin cities of Port William and Port Arthur. There, as the liner rests in harbor alongside the long, low freighters that carry Canada's wheat to the ocean ports of the east. The "Sleeping Giant" lies across the water, guarding the entrance to Thunder Bay. Towering grain elevators line the water's edge, western Canada's contribution to twentieth century agriculture.

For a night and a day the steamer cruises eastwards across Superior, out of sight of land. Here the traveller enjoys all the thrill of an ocean voyage and, as he paces wind-swept decks, dines in the luxurious dining room or lounges in spacious salons, may imagine himself headed for the mysterious east.

After crossing the biggest inland lake in the world, the cruise ship enters busy Sault Ste. Marie Canal, the busiest canal in the world. Gliding slowly up the St. Mary's River, the ship passes innumerable islands and quaint summer homes. Through the Soo locks, and long this river, three times as many vessels pass each year as go through the Suez or Panama canals in twelve months. Headed east are giant grain carriers laden with the product of the prairies. Heading west are package freighters and carriers and pulp and paper boats. Privately-owned speed launches dart out from island wharves. Here is Canadian shipping on parade, a panorama of the inland seas.

From the Soo, filled with fascination for the landlubber and never lacking in interest even for hardened seamen, the lake liner cruises onwards to reach beautiful Lake Huron, her trim bow pointed towards distant Sarnia and Detroit. Ship life goes on, with its mile marches around the liner's decks, its tea dances in the ballroom, its meals that are greeted by air-hearted appetites, its masquerades and informal dances, its bridges and its loafing, for plain loafing remains an important part of life on a lake liner, whether it is loafing in a comfortable deck chair with a book or magazine, or leaning against the deck rail gazing off into space towards a fading, passing shoreline.

Then Sarnia is reached and passengers continuing on to Detroit go ashore awhile to visit Lake Huron Beach, drive through neat, wide city streets, to shop or see the sights of this eastern Canadian port. There is time for a round of golf or a swim before America's automobile city. Again the ship is in the midst of maritime activity. Again she encounters tug and freighters and barges of all descriptions (continued on fifth column)

Of Interest to the Women

All women who are making their own jams and jellies will be interested in the new way to cover their open jars. Circles of "Cellophane," together with elastic bands and gummed labels, are available in packages at most stores. It is a simple matter to dip a circle in cold water, smooth it tightly over the jar, and slip on the elastic band. When dry, this material contracts, thus making a tough air-tight protector.

The difficulty of feeding hot or warm liquids to invalids in a sick-room can easily be overcome by using transparent drinking straws which will not collapse in hot fluids. These same straws, brightly colored, will tempt any child to drink his milk without a murmur of protest.

Women who want to be up-to-the-minute are now smoking rouge-tipped cigarettes; they match nails and lips, a three-way ensemble that is intriguingly new. The colored tip of "Cellophane," besides being smart and different, protects the lips when smoking.

LOCAL AND GENERAL

The Misses Joanna Flynn, Doris Bowen and Peggy Emmerson have been accepted into St. Joseph's hospital at Victoria, B.C. They will leave shortly for that city to report for duty on September 8th. Miss Mary Atkinson has been accepted into Victoria Jubilee Hospital. She will leave later in the month to arrive on September 16th.

Mr. and Mrs. Ralph Watson left last week for Pioneer, B.C., where they will take up residence.

PETROLEUM PRODUCTS PRICE INDEX

A recently prepared price index, compiled from government data, shows that petroleum products, in relation to other commodity price indices from September 1933, kept more uniform than any of them. From this date until January 9th, 1936, crude oil prices had been established on a basis that remained unchanged. The index illustrates that in uniformity of price level oil products made a substantially better showing than hides and leather, building materials, textiles, foods, or farm products. It shows also that prices for oil products, compared with their 1926 level, remained relatively lower than for all other commodities.

Government authorities in oil producing areas, and not the oil companies, determine regularly how much oil shall be taken from the ground to meet current demand. In the United States the federal government has a hand in it too. Oil producers may appear before these agencies and state their case for increasing the amount of their production. It may be granted and it may not. State regulatory commissions therefore translate into public policy the technical knowledge of the oil industry.

Limited in this way, there have been times when there was not enough surplus crude oil for the refineries. For some months preceding the 1936 price rise, some refineries had actually been paying premiums over the price posted by leading buyers of crude oil. —B-10.

CLASSIFIED ADVERTISEMENTS

Some articles of household furniture a used, car, any other things you would like to turn into cash? Just look around. Somebody might buy if they knew. Advertisements under this heading.

Two Cents per Word with minimum charge of 25c cash. If charged, 15c will be added for additional cost of book-keeping and mailing.

Trips on Great Lakes

(continued from second column)

scriptions and on both shores fogs are dipped in greeting to the prides of the upper lakes. From the river the liner passes into Lake St. Clair and soon the twinkling lights of Belle Isle herald the approach to Windsor and Detroit.

There, beneath the skyscrapers of the third largest city in the United States, the ship comes to rest. Passengers disembark to board special boat trains, or, if they have their cars aboard, they drive up the gang plank and continue their cruise by highway. For three full days and nights they have enjoyed the pleasures and thrills of cruising along peaceful waters. They have experienced the delights of ocean travel without ever having seen the sea. They have broken a long, tiresome journey and spent days in the open air, relaxing and enjoying a perfect vacation.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF William Wright, late of Coleman, Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the late William Wright, who died on the 29th day of July, 1937, are required to file with Angelo Gentile, Coleman, or with the undersigned by the 30th day of September, 1937, a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated this 24th day of August, 1937.
ANGELO GENTILE,
Executor.
R. F. BARNES,
Solicitor for the Executor,
